SATYAJIT MOHANTY

satyajitmohanty431@gmail.com | +91-7992549394 | github.com/Satyajit799

Professional Summary

Aspiring Full-Stack Developer with expertise in React, Node.js, MongoDB, Next.js, TS and REST API development. Strong foundation in programming and database systems, with a focus on building scalable MERN stack applications and analysing system vulnerabilities. Hands-on experience in cybersecurity simulations and a keen interest in modern DevOps and AI-driven solutions.

Technical Skills

Programming Languages: JavaScript, TypeScript, Java, Python, C
Frontend Development: HTML5, CSS3, React.js, Next.js, SCSS, Tailwind CSS
Backend Development: Node.js, Express.js, RESTful APIs
Databases: MongoDB, MySQL
Core Computer Science: Data Structures and Algorithms, Database Management Systems (DBMS), Operating Systems, UNIX
Tools & Version Control: Git, GitHub
Other Knowledge: Cybersecurity Fundamentals

Projects

1. College Canteen Booking System

Tech Stack: React.js, Node.js, Express.js, PostgreSQL, Prisma ORM, Razorpay, QR Code | 2026
github Repo: https://github.com/Satyajit799/college-canteen

Developed a full-stack web application for student meal bookings with course- and year-based categorization.

Implemented booking validation to prevent duplicate bookings and integrated PostgreSQL using Prisma ORM.

Integrated Razorpay payment processing and QR-code-based booking verification.

2. Smart Complaint Management System | 2026

Tech Stack: React.js, Node.js, Express.js, MongoDB, Leaflet, JWT | Ongoing

Developing a full-stack complaint management system with interactive map-based location visualization using Leaflet.

Implementing JWT-based authentication and RESTful APIs for complaint management.

Using React Context API for state management and building a responsive dashboard for complaint monitoring.

3. Hospital Appointment Management System

Tech Stack: React.js, Node.js, Express.js, MongoDB

github Repo: https://github.com/Satyajit799/Hospital-Appointment-System

Developed a full-stack web application for hospital appointment management using React.js, Node.js, Express.js, and MongoDB.

Structured the backend using modular routes, controllers, models, and middleware to support maintainable API development.

Built a component-based frontend with organized pages, layouts, and reusable UI components.

4. Event Management System

Tech Stack: React.js, Node.js, Express.js, MongoDB

github Repo: https://github.com/Satyajit799/event-management-system

Developed a full-stack event management application with event booking functionality and database integration.

Implemented backend booking logic to validate seat availability, manage event capacity, and prevent duplicate confirmed bookings.

Developed booking cancellation functionality to update booking status and release seats for subsequent bookings.

5. ToDesktop — Responsive Web Interface

Tech Stack: HTML5, CSS3, JavaScript, Tailwind CSS
GitHub: https://github.com/Satyajit799/ToDesktop

Developed a responsive web interface using HTML, CSS, JavaScript, and Tailwind CSS.

Implemented interactive UI elements and responsive layouts to provide a consistent experience across screen sizes.

Applied structured styling and reusable frontend patterns to improve maintainability.

Internships

Full Stack Web Development, Pyhton – SparkIIT | 2026
Data Analytics Using Python & AI – Rooman Technologies Pvt. Ltd. | 2026
Cybersecurity Job Simulation – Deloitte Australia (Forage) | June 2025

Education

MCA (Ongoing)	**College of IT and Management Education, Bhubaneswar**	
B.Sc. Computer Science (2025)	**Udayanatha Autonomous College of Science & Technology**	CGPA: 7.97
Class XII (2022)	**Swagatika Higher Secondary School, CHSE**	Marks: 83%
Class X (2020)	**Kamal Lochan High School, BSE**	Marks: 73%
